Minimize Distraction

Similar to worshipping in the church building, we encourage you to put away other devices and avoid doing things while the service is running. We know it's tempting, but please give it your undivided attention as much as possible as we worship together.

Be Ready to Engage

Have your Bible, pen, and journal ready. We also have sermon notes on the side that can help you follow along. Use this time to write down things that God is saying to you.

After the service, we encourage you and your small group to take time to talk about the discussion questions laid out each week.

Share with One Another

Join our discussion on the **Live Chat**. Share some of your reflections and thoughts! If you would like prayer during the service, you can click on the **Live Prayer** icon and one of our pastors would be happy to connect with you.
